MEDICAL NOTES POWERHOUSE

Medical Notes Powerhouse

High-Yield Flashcards for NEET SS & INI SS-ET

Rapid Recall Series
Flashcard Compendium

09 VOLUME
of 10 · Volume IX · 458 pages

487 TOPICS

4 DECKS

10 VOLUME SET

DECKS IN THIS VOLUME

- Cardiology Core
- Oncology & Hematologic Malignancies
- Coagulation & Infectious Disease
- Pulmonary Medicine

VOL IX / X

Table of Contents

Medical Notes Powerhouse · Volume IX · Rapid Recall Series · 487 topics · 4 decks

DECK 01 Cardiology Core

178 topics

DECK 01 Cardiovascular Epidemiology & Approach

DECK 01 Cardiac Physiology & Vascular Biology

DECK 01 ECG Interpretation

DECK 01 Stable IHD: Pharmacotherapy

DECK 01 Coronary Anatomy & Physiology

DECK 01 Stable Ischemic Heart Disease: Evaluation

DECK 01 NSTE-ACS: Pathophysiology & Diagnosis

DECK 01 STEMI: Diagnosis & Reperfusion

DECK 01 Heart Failure: Pathophysiology

DECK 01 HFrEF: Guideline-Directed Medical Therapy

DECK 01 Cardiac Transplantation

DECK 01 Mechanical Circulatory Support: LVAD

DECK 01 Hypertrophic Cardiomyopathy

DECK 01 Cardiac Amyloidosis

DECK 01 Myocarditis

DECK 01 Pericardial Disease

DECK 01 Congenital Heart Disease

DECK 01 Valvular Heart Disease

DECK 01 Atrial Fibrillation

DECK 01 Ventricular Arrhythmias

DECK 01 Peripheral Arterial Disease

DECK 01 Venous Disease

DECK 01 Pulmonary Hypertension

DECK 02

Oncology & Hematologic Malignancies

26 topics

DECK 02 Lynch Syndrome

DECK 02 AL Amyloidosis

DECK 02 Aplastic Anemia

DECK 02 Acute Lymphoblastic Leukemia

DECK 02 Acute Myeloid Leukemia

DECK 02 Hodgkin Lymphoma

DECK 02 Chronic Lymphocytic Leukemia

DECK 02 Chronic Myeloid Leukemia

DECK 02 Multiple Myeloma

DECK 02 Myelodysplastic Syndrome

DECK 02 Primary Myelofibrosis

DECK 02 Polycythemia Vera

DECK 02 Sickle Cell Disease

DECK 02 G6PD Deficiency

DECK 02 Iron Deficiency Anemia

DECK 02 Febrile Neutropenia

DECK 02 Tumor Lysis Syndrome

DECK 02 Hepatocellular Carcinoma

DECK 02 Renal Cell Carcinoma

DECK 02 Pancreatic Cancer

DECK 03
Coagulation & Infectious Disease

81 topics

DECK 03 Community-Acquired Pneumonia
DECK 03 Infective Endocarditis
DECK 03 C. difficile Infection
DECK 03 Falciparum Malaria
DECK 03 Cryptococcal Meningitis
DECK 03 Invasive Aspergillosis
DECK 03 Candidiasis
DECK 03 Mucormycosis
DECK 03 Tuberculosis (MDR-TB)
DECK 03 Lyme Borreliosis
DECK 03 Leptospirosis
DECK 03 Leishmaniasis
DECK 03 Toxoplasmosis
DECK 03 Chagas Disease
DECK 03 Pneumocystis jirovecii Pneumonia
DECK 03 Schistosomiasis
DECK 03 Neurocysticercosis
DECK 03 Rabies
DECK 03 Monkeypox (Mpox)
DECK 03 HSV Encephalitis

DECK 04
Pulmonary Medicine
202 topics

DECK 04 Pulmonary Function Testing & Physiology

DECK 04 Interstitial Lung Disease: IPF & UIP

DECK 04 Asthma: Diagnosis & Management

DECK 04 COPD: Pathophysiology & Diagnosis

DECK 04 Cystic Fibrosis

DECK 04 Pleural Effusions

DECK 04 ARDS: Definition & Management

DECK 04 Mechanical Ventilation

DECK 04 Sepsis: Resuscitation & Bundles

DECK 04 Cardiogenic Shock

DECK 04 Acute Kidney Injury: KDIGO

DECK 04 Chronic Kidney Disease

DECK 04 Glomerular Disease

DECK 04 Nephrolithiasis

DECK 04 Kidney Transplantation

DECK 04 Dialysis: Principles & Modalities

DECK 04 Neurocritical Care

DECK 04 ICU Sedation & ABCDEF Bundle

DECK 04 ECMO: Indications & Configurations

DECK 04 Obstructive Sleep Apnea

End of Table of Contents

RAPID RECALL

CONTENTS

Medical Notes Powerhouse - Volume IX

01 DECK **Cardiology Core** 14

- Cardiovascular Epidemiology & Approach 15
- Cardiac Physiology & Vascular Biology 16
- ECG Interpretation 17
- Stable IHD: Pharmacotherapy 20
- Coronary Anatomy & Physiology 21
- Stable Ischemic Heart Disease: Evaluation 22
- Heart Failure: Definitions & Epidemiology 23
- Stable IHD: Revascularization & Special Situations 23
- NSTE-ACS: Pathophysiology & Diagnosis 24
- NSTE-ACS: Risk Stratification 24
- NSTE-ACS: Initial Management & Antianginals 25
- NSTE-ACS: Antiplatelet & Anticoagulant Therapy 25
- NSTE-ACS: Invasive Strategy & Secondary Prevention 26
- Vasospastic Angina 26
- STEMI: Diagnosis & Reperfusion Strategy 27
- STEMI: Acute Management 28
- STEMI: Multivessel Disease & Cardiogenic Shock 28
- STEMI: Mechanical Complications 29
- STEMI: Post-MI Therapy & Secondary Prevention 29
- Percutaneous Coronary Intervention: Devices & Techniques 29
- PCI vs CABG: Landmark Trials 30
- Other 30
- Heart Failure: Pathophysiology 31
- Heart Failure: Clinical Features & Diagnosis 32
- HFrEF: Guideline-Directed Medical Therapy 33
- HFpEF & Other HF Phenotypes 33
- Acute Decompensated Heart Failure 34
- Heart Failure: Device Therapy 35
- Iron Deficiency & Adjunct HF Therapies 35
- Cardiac Transplantation: Recipient & Donor Selection 35

- Cardiac Transplantation: Surgery & Early Care 36
- Cardiac Transplantation: Immunosuppression & Rejection 36
- Cardiac Allograft Vasculopathy & Late Complications 37
- Mechanical Circulatory Support: LVAD 37
- Cardiac Physical Examination 38
- Echocardiography & Doppler 39
- Nuclear Cardiology & PET 39
- Coronary CTA, FFR & Invasive Imaging 40
- Cardiac MRI 40
- Cardiac Catheterization & Hemodynamics 40
- Hypertrophic Cardiomyopathy 41
- Cardiac Amyloidosis 42
- Chagas Disease 44
- Dilated Cardiomyopathy: Genetic & Familial 44
- Arrhythmogenic Cardiomyopathy (ARVC/ACM) 44
- Tachycardia & Reversible Cardiomyopathies 45
- Storage & Syndromic Cardiomyopathies 45
- Myocarditis: Viral & Acute 45
- Myocarditis: Specific Etiologies 46
- Cardiac Sarcoidosis 47
- Peripartum Cardiomyopathy 48
- Toxic & Drug-Induced Cardiomyopathies 48
- Takotsubo Cardiomyopathy 49
- Restrictive Cardiomyopathies & Endomyocardial Fibrosis 49
- Congenital Heart Disease: Embryology & Genetics 49
- Pericardial Disease: Acute Pericarditis 50
- Pericardial Effusion & Tamponade 51
- Constrictive Pericarditis 52
- Congenital Heart Disease: Adult CHD General 52
- Tetralogy of Fallot 53
- Structural Heart Interventions 53
- Ebstein Anomaly 54
- ASD, VSD, PDA & AVSD 54
- Coarctation & Aortopathies in CHD 55
- Transposition of Great Arteries 55
- Single Ventricle & Eisenmenger 55
- Pregnancy & Heart Disease 56
- Anomalous Coronary Arteries 56
- Cardiac Tumors 56
- Hypertension: Definitions & Measurement 58
- Pulmonary Embolism: Diagnosis 58
- Hypertension: Pharmacotherapy 59

- Aortopathies & Aneurysms 60
- Pulmonary Hypertension 60
- Carotid Artery Disease 60
- Hypertension: Pathophysiology 60
- Secondary Hypertension: Endocrine 61
- Secondary Hypertension: Renovascular & Other 61
- Hypertension: Lifestyle & Targets 62
- Hypertensive Crises 62
- Renal Artery Disease & Renovascular Disorders 63
- Venous Thromboembolism: Pathophysiology & Risk 64
- DVT: Diagnosis & Special Syndromes 64
- Pulmonary Embolism: Risk Stratification & Management 65
- VTE: Anticoagulation & Long-Term Therapy 66
- CTEPH & Paradoxical Embolism 66
- Aorta: Abdominal Aortic Aneurysm & Screening 66
- Aorta: Thoracic & Inflammatory Aneurysms 67
- Aorta: Dissection, IMH & PAU 67
- Aorta: EVAR, Aneurysm Morphology & Pseudoaneurysm 68
- Vasculitis: Takayasu, GCA & Aortoiliac Occlusion 69
- Peripheral Arterial Disease: Anatomy, Diagnosis & Imaging 69
- Peripheral Arterial Disease: Medical Management 69
- Peripheral Arterial Disease: Revascularization 70
- Peripheral Arterial Disease: FMD, Buerger's & Entrapment 70
- Acute Limb Ischemia & Embolism 70
- Arteriovenous Fistula 71
- Vasospastic Disorders: Raynaud, Acrocyanosis, Pernio & Erythromelalgia 71
- Venous Disease: Anatomy & Varicose Veins 71
- Venous Disease: Chronic Venous Insufficiency & Ulcers 71
- Venous Disease: DVT & Iliac Compression 72
- Venous Disease: Endovenous Ablation & Sclerotherapy 72
- Lymphatic Disease: Genetics & Etiology 72
- Lymphatic Disease: Clinical & Management 72
- Pulmonary Hypertension: Classification & Pathobiology 73
- Pulmonary Hypertension: Diagnosis & Risk Stratification 73
- Pulmonary Arterial Hypertension: Therapy 74
- CTEPH 75
- PAH: Special Populations & Presentations 75
- Ventricular Arrhythmias: Mechanisms & ECG 75
- Ventricular Arrhythmias: Classification & Substrate 76
- Antiarrhythmic Pharmacology 77
- ICD: Indications & Outcomes 78
- VT Catheter Ablation & SBRT 78

- Post-ICD Shock Management 79
- PVCs & PVC-Induced Cardiomyopathy 79
- Brugada Syndrome 80
- Repaired Tetralogy of Fallot: VT Risk 80
- Acute MI: Reperfusion Arrhythmias & Idiopathic VF 80
- Long QT Syndrome & Torsades de Pointes 81
- Short QT, CPVT & Early Repolarization 82
- Electrical Storm Management 82
- ICD Programming & Inappropriate Therapy 83
- Valvular Heart Disease: Murmurs & Bedside Maneuvers 83
- LV Remodeling: Concentric vs Eccentric 83
- Aortic Stenosis: Severity & Clinical Features 83
- Mitral Regurgitation: Classification & Mechanisms 84
- Mitral Regurgitation: Management & TEER 84
- Aortic Stenosis: Etiology & Pathobiology 85
- Low-Flow Low-Gradient & Paradoxical AS 86
- Aortic Stenosis: Surveillance & Surgical Thresholds 86
- Aortic Valve Replacement: SAVR, TAVR & Ross 87
- Aortic Regurgitation: Etiology & Pathophysiology 87
- Aortic Regurgitation: Clinical Features 88
- Aortic Regurgitation: Imaging & Management 88
- Mitral Stenosis: Etiology & Hemodynamics 89
- Mitral Stenosis: Clinical Features 90
- Mitral Stenosis: Management & PMBC 90
- Mitral Regurgitation: Severity & Imaging 91
- Acute Mitral Regurgitation 91
- Mitral Valve Prolapse: Pathology & Genetics 92
- Mitral Valve Prolapse: Clinical Features 92
- Arrhythmic MVP & Annular Disjunction 93
- MVP: Management & Prophylaxis 93
- Tricuspid Stenosis 93
- Tricuspid Regurgitation: Etiology & Classification 93
- Tricuspid Regurgitation: Diagnosis 94
- Tricuspid Regurgitation: Management & TEER/TTVR 94
- Pulmonic Stenosis 95
- Pulmonic Regurgitation 95
- Mixed & Multivalvular Disease 96
- Cardiac Electrophysiology: Cellular Basis 97
- Conduction System Anatomy 98
- Atrial Fibrillation: Epidemiology & Classification 98
- Pre-excited AF in WPW 99
- Atrial Fibrillation: Acute Management & Cardioversion 99

- Atrial Fibrillation: Rate vs Rhythm Control 99
- Atrial Fibrillation: Anticoagulation & Stroke Prevention 100
- Atrial Fibrillation: Ablation & Complications 100
- Sinus Node: Physiology & Dysfunction 100
- Sinus Node: Anatomy & Vascular Supply 101
- Bradyarrhythmias: Reflex Mechanisms 101
- AV Block: ECG & Localization 101
- AV Block: Etiologies 102
- Bifascicular Block & Pacing Indications 102
- Supraventricular Tachycardia: Approach & Diagnosis 103
- AVNRT 103
- WPW & Accessory Pathways 104
- Tachycardia-Induced Cardiomyopathy 104
- Sinus Tachycardia, IST & POTS 105
- Focal Atrial Tachycardia 105
- Junctional Ectopic Tachycardia 106
- PSVT: Acute Management 106
- Atrial Flutter: ECG & Mechanism 106
- Atrial Flutter: Management & Ablation 107
- Multifocal Atrial Tachycardia 107
- Anticoagulation: Monitoring & HIT 107
- Marfan Syndrome 107

02 DECK **Oncology & Hematologic Malignancies** 108

- Lynch Syndrome 109
- AL Amyloidosis 113
- Other 114
- Aplastic Anemia 184
- Acute Lymphoblastic Leukemia 187
- Acute Myeloid Leukemia 188
- Pancreatic Cancer 189
- Amyloidosis 197
- Hodgkin Lymphoma 197
- G6PD Deficiency 201
- Renal Cell Carcinoma 203
- Febrile Neutropenia 204
- Hepatocellular Carcinoma 205
- Cardiac Amyloidosis 207
- Chronic Lymphocytic Leukemia 207
- Chronic Myeloid Leukemia 208
- Ectopic ACTH Syndrome 209
- Sickle Cell Disease 209

- Primary Myelofibrosis 211
- Iron Deficiency Anemia 211
- Steady State 212
- Multiple Myeloma 213
- Myelodysplastic Syndrome 214
- Paroxysmal Nocturnal Hemoglobinuria 214
- Polycythemia Vera 215
- Tumor Lysis Syndrome 216

03 DECK **Coagulation & Infectious Disease** 217

- Other 218
- Pertussis 306
- Acinetobacter baumannii 308
- Cat-Scratch Disease 309
- Enteric Fever 313
- HSV Encephalitis 314
- Pneumococcal Meningitis 317
- African Trypanosomiasis 318
- Amebiasis 319
- Amebic Colitis 320
- Amebic Liver Abscess 321
- Amoebiasis 322
- Cryptococcal Meningitis 322
- Invasive Aspergillosis 327
- HACEK Endocarditis 329
- Community-Acquired Pneumonia 330
- Lung Abscess 332
- Babesiosis 334
- Filariasis 336
- C. difficile Infection 337
- Blastomycosis 340
- Leprosy 342
- Relapsing Fever 343
- Pseudomonas aeruginosa 345
- Brucellosis 346
- Diphtheria 348
- Infectious Mononucleosis 349
- Campylobacter fetus 350
- Candida auris 351
- Candidemia 352
- Candidiasis 352
- Falciparum Malaria 354

- Toxoplasmosis 356
- Chagas Disease 357
- Cholera 359
- Norovirus 360
- Non-Typhoidal Salmonella 361
- Strongyloidiasis 362
- Clostridial Myonecrosis 363
- Gas Gangrene 363
- Cryptococcosis 364
- Cutaneous Leishmaniasis 365
- Mucormycosis 366
- Sporotrichosis 368
- H. pylori 368
- Endemic Treponematoses 370
- Enterobius vermicularis 370
- Schistosomiasis 371
- H. pylori Eradication 372
- Infective Endocarditis 373
- Neurocysticercosis 373
- Listeriosis 375
- Yaws 375
- Legionnaires' Disease 376
- Leishmaniasis 377
- Leptospirosis 377
- Listeria monocytogenes 379
- Loiasis 380
- Lyme Borreliosis 380
- Lyme Disease 381
- Lymphatic Filariasis 382
- MDR-TB 382
- Measles 383
- Rabies PEP 384
- Molluscum Contagiosum 384
- Monkeypox (Mpox) 385
- Moraxella catarrhalis 385
- Tetanus 386
- Neurosyphilis 387
- Onchocerciasis 388
- Rabies 388
- Parvovirus B19 389
- Pneumocystis Pneumonia 391
- Pneumocystis jirovecii Pneumonia 392

- Viral Gastroenteritis 392
- Severe Falciparum Malaria 393
- Trichinellosis 393
- Shigellosis 394
- Toxic Shock Syndrome 395
- Traveler's Diarrhea 396
- Visceral Leishmaniasis 396

04 DECK **Pulmonary Medicine** **398**

- Interventional Pulmonology: Bronchoscopy & Airway Procedures 399
- Interventional Pulmonology: Central Airway Obstruction & Stenting 399
- Bronchoscopic Lung Volume Reduction & Persistent Air Leak 400
- Pulmonary Function Testing & Physiology 400
- Pulmonary Imaging & Diagnostic Workup 401
- Respiratory Physiology: Hypoxemia, Hypercapnia & Ventilatory Control 402
- Pulmonary Hypertension & PAH 403
- Chronic Hypoventilation & Neuromuscular Respiratory Failure 403
- Obesity Hypoventilation Syndrome 404
- Acute Respiratory Failure & Initial Ventilatory Support 404
- Interstitial Lung Disease: NSIP, COP, DIP & Other Patterns 404
- Interstitial Lung Disease: IPF & UIP 405
- Cystic & Hemorrhagic Lung Disease 405
- Sarcoidosis 406
- Hypersensitivity Pneumonitis 406
- Eosinophilic Lung Disease & Pulmonary Eosinophilia 407
- ABPA & Allergic Aspergillosis 407
- Pleural Effusions: Diagnostic Approach 408
- Pleura: Malignant Effusion & Mesothelioma 408
- Pleura: Parapneumonic Effusion & Empyema 409
- Pneumothorax & Hemothorax 409
- Lupus, Rheumatoid & Post-Cardiac Pleural Disease 410
- Pleura: Tuberculous & Hepatic Hydrothorax 410
- Asthma: Diagnosis & Phenotyping 410
- Asthma: Pharmacotherapy & Management 410
- Acute Severe Asthma 411
- COPD: Pathophysiology & Diagnosis 411
- COPD: Stable Disease Management 411
- COPD Exacerbation & Acute Care 412
- Polycythemia in Lung Disease 413
- Other 413
- Lung Transplantation: Recipient Selection & Allocation 413
- Lung Transplantation: Immunosuppression & Rejection 414

- Lung Transplantation: Donor & Procedural 414
- Lung Transplantation: Post-Transplant Complications 415
- Obstructive Sleep Apnea: Pathophysiology & Diagnosis 415
- OSA: Treatment Options 416
- Sleep Apnea: Perioperative & Screening 416
- Central Sleep Apnea 416
- Pediatric OSA 417
- SVC Syndrome & Fibrosing Mediastinitis 417
- Mediastinum: Posterior & Neurogenic Tumors 417
- Mediastinum: Thymoma & Anterior Compartment 417
- Traumatic Aortic Injury 417
- Mediastinal Masses: Diagnostic Approach 418
- Mediastinum: Cystic Lesions 418
- Mediastinitis & Mediastinal Air 418
- Cystic Fibrosis: Pulmonary Complications & Management 418
- Cystic Fibrosis: Extrapulmonary Manifestations 419
- Cystic Fibrosis: CFTR Modulators 419
- Cystic Fibrosis: Pathophysiology & Genetics 419
- Bronchiectasis: Diagnosis & Etiology 419
- Bronchiectasis: Management & Complications 420
- Occupational Lung Disease: Asbestos & Silica 421
- Occupational Lung Disease: Beryllium, Hard Metal & Coal 421
- Pneumoconiosis: Patterns & Distribution 421
- Occupational Asthma, COPD & Inhalational Syndromes 421
- Sudden Cardiac Death & Cardiac Arrest 422
- Post-Cardiac Arrest Care & Prognostication 422
- Cardiac Arrest: BLS, ACLS & Resuscitation 423
- Arrhythmias: Long QT, Torsades & Toxicity 424
- Neurocritical Care: Coma & Brain Death 424
- Neurocritical Care: Stroke & ICH 424
- Neurocritical Care: Status Epilepticus & Seizures 425
- Neurocritical Care: ICP & TBI 425
- Neurocritical Care: SAH & Vasospasm 425
- Osmotic Demyelination & Electrolyte Emergencies 425
- Neurocritical Care: Spine, Neuromuscular & Infection 425
- ICU Delirium & Cognitive Dysfunction 426
- ICU-Acquired Weakness 426
- Cardiogenic Shock: Pathophysiology & Diagnosis 426
- Cardiogenic Shock: Pharmacotherapy 426
- Cardiogenic Shock: Mechanical Circulatory Support 427
- Post-MI Mechanical Complications 427
- Heart Failure: Acute Pulmonary Edema 427

- Cardiomyopathies: Peripartum, Takotsubo, Myocarditis 428
- Cardiac Tamponade & Pericardial Disease 428
- Cardiogenic Shock: Revascularization & Trials 428
- Hemodynamic Monitoring & PA Catheter 428
- Heart Transplantation & ICU Rejection 428
- Shock: Classification & Hemodynamics 428
- Hemorrhagic Shock & Trauma Resuscitation 429
- Shock: Monitoring & Fluid Responsiveness 429
- Shock: Resuscitation Endpoints 430
- Pulmonary Embolism (Massive) 430
- Anaphylaxis & Adrenal Crisis 430
- Hemorrhagic & Cardiogenic Shock Mixed Topics 430
- Mechanical Ventilation: Waveforms & Troubleshooting 431
- Mechanical Ventilation: Lung Protective Strategy 431
- Mechanical Ventilation: Modes & Principles 431
- Mechanical Ventilation: Weaning & Liberation 432
- Ventilator-Induced Lung Injury & Barotrauma 432
- VAP & Ventilator-Associated Events 432
- ECMO: Indications & Configurations 432
- Non-Invasive Ventilation & HFNC 433
- Ventilation in Obstructive Disease 433
- ICU Sedation, Analgesia & ABCDEF Bundle 433
- Sepsis: Definition & Screening 433
- Sepsis: Resuscitation & Bundles 433
- Sepsis: Antibiotic & PCT 434
- Sepsis: Lactate & Endpoints 434
- Sepsis: Adjuncts & Special Therapies 434
- Septic Cardiomyopathy & POCUS 435
- Sepsis: Vasopressors & Steroids 435
- Source Control & Specific Infections 435
- Multiple Organ Dysfunction & Post-Sepsis 435
- ICU AKI & RRT Timing 436
- General ICU Care: Glycemic Control & Nutrition 436
- ICU Scoring & Prognostication 436
- Critical Care Physiology & Resuscitation Principles 436
- ICU End-of-Life & Mesenteric Ischemia 436
- ARDS: Definition & Epidemiology 436
- ARDS: Lung Protective Ventilation & Adjuncts 437
- ARDS: Fluid Strategy 437
- ARDS: Pathology & Imaging 437
- ARDS: Refractory & ECMO 438
- TRALI 438

- Urinary Tract Obstruction & Hydronephrosis 438
- Postrenal AKI & Bladder Outlet 438
- Upper Tract Malignancy & Pelvic Obstruction 439
- Neurogenic Bladder 439
- Retroperitoneal Fibrosis 439
- Pregnancy-Associated Hydronephrosis 439
- Obstructive Uropathy: Pathophysiology 439
- Acute Interstitial Nephritis 439
- Chronic Interstitial & Toxic Nephropathies 440
- Drug-Induced Tubular Disorders & Pseudo-AKI 440
- Renal Tubular Acidosis & Fanconi 441
- Sarcoid, Sjögren & Sickle Cell Renal Disease 441
- Reflux & Pyelonephritis 441
- Urate Nephropathy & TLS 441
- Nephrolithiasis: Pathogenesis & Composition 441
- Nephrolithiasis: Medical Management & Prevention 442
- Nephrolithiasis: Urological Intervention 443
- Hereditary Stone Disease 443
- Thrombotic Microangiopathy: TTP 443
- Thrombotic Microangiopathy: HUS & aHUS 443
- Scleroderma Renal Crisis 444
- Drug-Induced TMA 444
- TMA Diagnosis: General 444
- Renal Medullary Carcinoma & Vascular Lesions 444
- Preeclampsia & HELLP 444
- Antiphospholipid Syndrome 444
- Renal Vein Thrombosis 444
- Renovascular: FMD, RAS & Atheroembolic 445
- Glomerular Disease: IgA Nephropathy 445
- Glomerular Disease: ANCA Vasculitis 445
- Glomerular Disease: Myeloma & Paraprotein 445
- Glomerular Disease: Cryoglobulinemia & HCV 445
- Glomerular Disease: Lupus Nephritis 446
- Glomerular Disease: FSGS 446
- Glomerular Disease: Anti-GBM 446
- Glomerular Disease: Membranous Nephropathy 446
- Glomerular Disease: Minimal Change Disease 446
- Glomerular Disease: Amyloidosis 447
- Diabetic Nephropathy 447
- Nephrotic Syndrome: General 447
- Hereditary Glomerular Disease: Alport & Fibrillary GN 447
- Glomerular Disease: C3 Glomerulopathy & MPGN 447

- Acute Kidney Injury: KDIGO Definition & Workup 447
- AKI: Drug-Induced & Crystal Nephropathy 448
- Rhabdomyolysis-Associated AKI 448
- Contrast-Associated AKI 448
- Toxin & Tumor Lysis AKI 448
- Hepatorenal Syndrome 449
- Abdominal Compartment Syndrome 449
- ADPKD: Diagnosis & Imaging 449
- ARPKD & Hereditary Cystic Disease 449
- ADPKD: Management & Complications 450
- Tuberous Sclerosis & VHL 450
- Bosniak & Cystic Renal Lesions 450
- Tubular Channelopathies & Medullary Disease 450
- Chronic Kidney Disease: Definition & Progression 450
- CKD: Drug Dosing & Vaccination 451
- Diabetic Kidney Disease & SGLT2/GLP-1 451
- CKD: Acid-Base & Anemia 451
- CKD-MBD & Bone Disease 451
- CKD: Hypertension Management 452
- APOL1 & Hereditary CKD 452
- Uremic Complications 452
- Kidney Transplantation: Immunosuppression 452
- Kidney Transplantation: Allocation & Outcomes 452
- Kidney Transplantation: Rejection 452
- Kidney Transplantation: Immunology & Crossmatch 453
- Kidney Transplantation: Post-Transplant Infection & Recurrence 453
- Transplantation: Immunosuppression & Pharmacogenomics 453
- Transplantation: Donor Evaluation & Recipient Selection 453
- Transplantation: Post-Transplant Complications 453
- Hemodialysis Access: AVF/AVG Dysfunction & Surveillance 454
- Renal Biopsy 454
- Hemodialysis Access: AVF Creation & Site Selection 454
- Hemodialysis Access: Central Venous Catheters 455
- Peritoneal Dialysis: Catheter, Adequacy & Complications 455
- Vascular Access: Central Venous Stenosis & Renal Artery Imaging 456
- Hemodialysis: Complications & Management 456
- Dialysis: Principles & Modalities 456
- Renal Physiology: Glomerular Filtration & Barrier 457
- Renal Pharmacology: Diuretics & Tubulopathies 457
- Renal Physiology: Tubular Transport & Countercurrent 457
- Renal Physiology: RAAS & Endocrine Functions 458
- Electrolyte & Water Disorders 458
